

February 27, 1974

(Begin Belt #4A)

(Machine shut off during vote on LB1014 and title read on LB629).

PRESIDENT: Emergency clause say aye. Those opposed say no.

SENATOR KEYES: Mr. President, I move for the advancement of the bill. All this bill does is simply give the counties jurisdiction over an SID district when it's in....confined to the county and the municipality, the city when it's in the zoning jurisdiction of the city. It's what we think would help the SID's quite a bit so I move for the advancement of the bill.

PRESIDENT: Any discussion? Senator Duis.

SENATOR DUIS: Senator Keyes, I wonder if you would be good enough to explain to the legislators the situation involved where an SID is part within the corporate limits and part without. I think that's part of your bill that you would want explained.

SENATOR KEYES: Well, I believe it will be the major part.... wherever the major part is, it will be carried by that community of government whether it's the county or the city. Wherever the major part of the development is and this does happen many times. But, I believe now, I don't know for sure, but I believe that would be the way it would be. That's the way the first bill was drafted wherever the major part came in. Is that what you wanted to know, Senator Duis? No, that would be the way it would be, I'm positive it is. It isn't in this statute but as these statutes are right now, this simply gives the county jurisdiction where their land is and the city where theirs is and I presume they can work together. I don't know, if it's not in here why.....

SENATOR DUIS: Members of the Legislature, I think it's on line 30 of the amendment and if it's outside of the jurisdiction of the city, well then the county would have the jurisdiction.

SENATOR KEYES: Well, Senator Stull is talking whereby half of it is in the city and half of it's in the county and I would presume, I don't know, but, how it would be. If you would want to hold the bill and find out, fine, but I think it's all right just as it is. I've never had that question posed to me before, Senator Duis. So I move for the advancement of the bill, if there's anything wrong with that we'll take care of it on down the line if I hear any complaints on it.

PRESIDENT: Any further discussion? If not, those in favor of the bill to advance, LB629, vote aye. Those opposed vote nay. Senator Whitney voting aye. You're going to have to pay attention to voting. Have you all voted? Clerk will record.

CLERK: 27 ayes, no nays, Mr. President.

PRESIDENT: The bill's advanced. Next bill's LB631.

CLERK: Read LB631. There are committee amendments by Senator Snyder's Urban Affairs Committee.

PRESIDENT: Senator Frank Lewis.
